Mr. Leonard H. Finn
[REDACTED]

Dear Mr. Finn:

Thank you for your kind remarks with respect to my book. I hope others get a small part of the enjoyment from it which I derived in writing it.

Your Charleston one shilling and three pence note is on the identical paper of the signed pieces and is absolutely original. It is a part of an unsigned remainder. I am going to list the fact that this note is unsigned, in the second edition of my book, (hopefully). I also am going to list something else which I noticed, namely, that the second use of the word "treasury" is misspelled.

Receipt is acknowledged of your \$3 by the Society for its research purposes and for which we thank you. This is deductible for income tax purposes.

The note is returned herewith.

Sincerely yours,

ERIC P. NEWMAN NUMISMATIC

Mr. Leonard H. Finn

Dear Mr. Finn:

We had heard of the fact that someone in the Boston area had bought a Massachusetts 20 shillings note of the 1691 period and apparently you were the lucky one.

Offhand I do not recall any auction sale of this item.

It is, as you know, altered from 2s 6d as is the one illustrated in my book. The only reason these survived was because an altered bill was unredeemable for any amount at all. I only know of one other in a private collection. All I do know is that the piece is very rare and appears to be original and genuine.

If you ever determine to part with it we would be very grateful for the opportunity to acquire it. We would also be glad to exchange it for a large group of early Colonial paper money if that would be of interest to you.

We hope we have been helpful.

Sincerely yours,

Dear Mr. Finn:

I was delighted to hear from you and appreciate your kind words about the convention.

With respect to the North Carolina \$10 note of 1776, I was aware of the defect but did not mention it, specifically, because all of those pieces I have seen show the lower portion of the L broken off. Perhaps there are some notes which were printed before the L was broken but I am not familiar with any. I appreciate any suggestions you make to improve EARLY PAPER MONEY OF AMERICA and hope you will continue sending them in.

I have not forgotten your interest in the John Lang notes. Unfortunately, the collection out of which I hoped to get them for you is tangled in legal involvements for the present.

Kindest regards.

Sincerely yours,

Mrs. Leonard H. Finn

Dear Leonard:

You were very nice to write me and make suggestions in your letter of November 3, 1970. I think they are excellent ones.

What appeals to me, most, is that you might like to help in revising prices.

I am going to answer the points you made, numbering them as you numbered them.

1. As to grading: I will give this a great deal of thought as some of the rare pieces do not come in decent condition. The fact that they are repaired, or backed, makes them have little appeal to some but is most acceptable to others. This needs a lot of thought.

2 and 3. Prices will be revised and I will ask Dick Picker and Ben Douglas, again, with you, or any one else who cares to participate. I will not set prices myself. If we could get a formula to spread beyond the commonest grades that probably would be more helpful than trying to price five grades.

4. I agree that Revolutionary War counterfeits should be priced. Would you give me some suggestions as to that pricing. Some of the counterfeits are very rare and they are probably more interesting than the genuine.

5. I agree that the blue detectors should be priced and would appreciate your thoughts on that now.

6. Would you be nice enough to send me a photocopy of page 53 of the Spiro collection sale. My copy is buried somewhere.

Dear Eric,

Thanks for the November 9th letter. I'm flattered by your thoughts on my helping to revise the pricing of the Colonial notes, but whether I'm competent requires some thought. I'll let you know shortly.

I'm enclosing the page on the Private Issues of New Jersey from the Spiro collection.

Your note about including the 1790-1800 notes in the edition makes me very happy. Over the past few years, I have been buying them as I always considered them part of the Colonial era. They're very scarce and have been only able to pick up a dozen. In the next issue of Paper Money I have a small "wanted to buy" on these notes. I have also enclosed a copy of my 11 cent note on the Washington Bank of Westerly, R.I. and wonder if you have it listed? The denomination is unusual and the "odd denomination" collectors want it. When I get a chance I'll add my notes. By chance I may have a note that isn't listed.

One other thing. Do you have a Want List? As you know, I'm a type collector and I may have a date, denomination or even a type your looking for. I'm enclosing a copy of a few of the notes I want - maybe we can trade.

Sincerely,

Dear Eric:

I haven't written in some time as I've been under the weather. Colds, etc. I'm O.K. now.

After thinking it over, if the offer is still open I'd like to help in the revising of the prices of the Colonial Paper money.

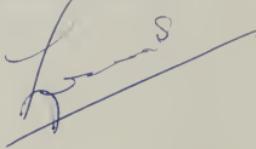

So far I haven't had an answer to my small Ad in the Paper Money magazine

[REDACTED]

Dear Leonard:

We really had a pleasant evening together and I thank you for going to the trouble to show me some of your choice items. I hope we can do it again, either here or there.

I appreciate your nice remarks about my book on Colonial paper money and if you saw how many additions and corrections I have already made, you'd see I have just begun. I certainly will appreciate your price revision thoughts when the time comes so start putting such comments in your copy of the book.

As to Colonial pieces, I certainly will be glad to trade types you need for denominations I need. Some of those you showed me which were tradable, I can use, as follows:

1780 New York \$1.00. Do you have another of the issue or not?

1/2/76 New Hampshire \$3. Is this due in 1763, 84, 85 or 86?

6/2/76 New Hampshire 8d.

6/2/76 New Hampshire 4sh.

6/2/76 New Hampshire 3d. Is this due in 1787 or 1788?

7/3/76 New Hampshire \$5.

10/1/55 Pennsyl. 10sh. Is this plate A or B?

Please let me know what Alaska you want to part with as I have never collected them. I'll either buy or exchange something, as you wish.

As to the change notes, I'll write you in due course.

Dear Eric:

Than s for the letter. It was nice to have you here. I don't often have a chance to show my collection to such an appreciative audience. Whenever you're in Boston and you have a "free" evening, please call me.

Before I forget, please send me a photostat of the 16¢, Washington Bank of Westerly R.I. The fellow compiling the list of Rhode Island notes for the Paper Money Society will include it.

On the notes, here are the answers:

1780 N.Y. \$1.00. Only note I have of this series. Will trade for any other denom. (F)

1/2/76 N. H. \$3. due 1785 VF will trade for any other denom. or 7/3/76 issue

6/2/76 N. H. 8d (Jan. 1788) VF

6/2/76 N. H. 4sh. (Jan. 1787) VF

6/2/76 N.H. 3d (due 1788) XF

I want to end up with one note VF or XF any denom.

7/3/76 N. H. \$5. Available for trade - see note 1/2/76 issue

10/1/55 Penn. 10sh. Plate A. Could trade for Plate B (VF)

I bought a Rhode Island 1788 written date so you can cross this off want list. I hope you have some of the types I need for the above notes.

I'll drop you a note on the Alaska next week.

Sincerely,

ERIC P. NEWMAN NUMISMATIC EDUCATION SOCIETY

Mr. Leonard H. Fign

Dear Len:

Your nice letter of February 20, 1971 is at hand. I have been talking to Jim DuPont and he thinks you are a fine person, not just because he obtained some nice notes from you.

In September, 1973 there is going to be an International Numismatic Congress in the United States. This occurs at five year intervals and this is the first time the United States has ever been the host. I attended the last one in Copenhagen and it drew the numismatic scholars from all over the world. There is an exhibit going to be arranged at the American Numismatic Society and I have been asked to help to arrange for the early American portion. Would you like to lend your 1690 Massachusetts note for the purpose? Don't say this isn't far enough in advance. There will, of course, be many American collectors and historians who will come to see the exhibit.

As you requested, I am enclosing two photocopies of the 16 cent Washington Bank of Westerly, Rhode Island.

I have found some very exciting historical material on the New York City 1790 change notes and am now checking the city records of Albany, Hudson, and the churches, etc. This is going to be a tedious process but may produce interesting data.

I was called back to Boston for a few days for a funeral after I left you and I learned from Robert Edison that he knew somebody you knew and he knew I saw you. It's a small world, isn't it.

There are three of your notes which would fit into my collection. The New Hampshire June 2, 1776 8d, the New Hampshire July 3, 1776 \$5, and the New York 1780 \$1. At this time I do not have another one of that New York issue but I'll keep it in mind.

March 2, 1971

As to the two New Hampshire items, I am enclosing 4 pieces you need and you can select an equal value from these. The balance can be applied toward the Alaskan matter or something.

North Carolina	30s	March 9, 1754	#171
North Carolina	£3	July 14, 1760	850
Virginia	10s	April 5, 1759	#721
Virginia	£3	March 11, 1760	#1491

The Virginia pieces are, as you know, on very weak paper and thus don't come in nice condition as they circulated for a long time.

The four notes I borrowed from you have been photocopied. Three are returned (photocopies of all are also enclosed) and I wanted to try to talk you into an exchange for the Lutheran Church piece. I believe I have a real gem for you in exchange. It is a New Jersey from the Presbyterian Church. You don't have any New Jersey change notes. The real extra on the N.J. item is that it is signed by Elias Boudinot, who became the third director of the United States Mint. It is in much better condition than your Lutheran one, too. The N.J. piece is enclosed and it would please me much if you would swap it.

Thank you for the suggestion that we get together in Boston again. I'll certainly try to work it in.

My very best to you and your family.

March 8, 1971

Dear Eric:

Thanks for the notes and photostats. These are welcome additions to my collection. I'm enclosing the North Carolina \$3, and the N. J. Presbyterian notes.

I'm enclosing the N.H. 6/28/1776 8d #3159 (\$110.00) and N.H. 7/3/1776 5.00 #1743 (\$120.00).

If we are going to trade, we will have to put a monetary value on the notes. I feel these are fair prices. (I'd ask more to anyone else due to scarcity and condition). You also will have to price the 3 notes I'm keeping. If I owe you we can apply it to the Alaskan material and if you owe me, send me other notes. If you think my prices are out of line, please, let me know.

Let me know if you have any interest in any of the Alaskan material I listed and I'll send it along for approval.

I'm returning the North Carolina note as I have one. I'm looking for anything before 1760, although I could use a 1768.

I'm also returning the N.J. piece, as I don't want to exchange it for my Lutheran piece. I think my note is "unique". No one I have contacted has one or ever heard of it, and your note, though rare, is well known. One of thses days you will have something real exciting too me, the maybe I'll swap. I'm sure you understand. Incidentally what do you think is a fair price on any of these type notes??

I would like to exhibit my 1790 note for the International Exhibit in 1973. We might have a small conflict on dates. I intend to display it at the AMA show in Boston and the show closes August 27th. Will that be O.K? I'm sure I could get it to N.Y. in time.

Have you any need for the following Rhode Island notes?
6/29/1775 4 Shilling-VG Backed and pieced together
1/15/1776 6 pence- fine- small piece out of top border
1/15/1776 30 shilling-fine- border has tears
9/5/1776 $\frac{1}{2}$ dollar-VG- backed

Thanks again for notes.

Sincerely,

Leonard

Dear Len:

I have misplaced your letter on the Alaskan material so I hope you will give me a little more time to locate it. If you have a copy available, that would be great.

Thank you, very much, for the photocopy of the Bank of New York historical comment. That is excellent.

I remember Ralph Goldstone had the Parkerhouse sheet available and this I will be glad to buy from him. Would you be nice enough to have it mailed to me, unless you want to handle it through you.

Your friend, Jim DuPont just visited me and we talked about his favorite subjects.

With best wishes.

Dear Len:

Maurie Gould, whom I saw in California, wished to be remembered to you. He was his charming self when I was in California working, after I gave a talk on coins to a seminar there. This has delayed me in taking care of the various open matters between us.

I sincerely thank you for sending me pictures of the three additional change notes. There seems to be no end of new items. I found the Millton piece in the 1894 Scott Paper Money Catalogue and DuPont has one. What I need is a fine Xerox of the other two pieces and if you cannot easily obtain them, then I would be very grateful if you would lend them to me for that purpose.

I am returning your lovely little Lutheran Church note herewith.

As to your large group of Georgia pieces, I appreciate the photocopies and am studying them. If you want to do me a favor, I would like to acquire the 1777 \$4 note. In exchange for it I enclose a 1778 \$30 which you do not have in the collection and hope you will accept it. I can send a 1776 \$4 note if you prefer, but the \$30 is more popular.

As I previously told you, I would like to buy the Parker House sheet which Ralph Goldstone has at \$35.

From you I would like the Shishmaref Native Store set; Shepard Trading Co.; the Alaskan Bingles, without the holder, and Reindeer Commercial Company (Gambell). Would you like Colonial notes or cash for them?

My research is proceeding very satisfactorily on the change notes but it is very slow and tedious.

I do not believe I thanked you for the photocopy of The History of the Bank of New York and I do appreciate that cooperation from you.

You certainly have a fantastic ability to turn up unusual items and I hope you continue to have more and more of that good luck.

After I hear from you I promise to be an excellent correspondent. I will then straighten out the open matters as to the other Colonials.

Dear Leonard:

Thank you for the price list of the Georgia pieces. Now that I learned it is for sale, I enclose a check for \$60 for the 1777 \$4 Georgia note. If you exchanged it for the 1778 note I sent then tear up the check. If you want the money rather than the 1778 note, then send back the 1778.

It so happens that I do not have the border varieties of the 1777 \$11, the \$15 or the \$17. I have three of each and want to think over whether I need every border. Maybe I'm too technical. They certainly should sell easily.

I left a message with your wife that you should be cautious on the 1737 5 pence Mass. The statutes of Mass. include a full page of these notes as stated in my book. If the page is not fully printed on the back side then you would have a 1737 with no printed back. The paper in the genuine note and in the statute isn't too different. Be careful. I have the statutes in my collection, but no notes of the issue.

I look forward to hearing from you as to my last letter. I want to get this off to you quickly so you know the score.

Sincerely,

Dear Leonard:

Your interesting phone call was appreciated. It has shocked me for the moment.

You asked me to write you what I would like of Ralph Goldstone's material.

I still want the sheet of Parker House.

I am interested in his Massachusetts banknotes and scrip.

Some of his books would be additions and improvements to my library, as follows:

Valentine, Fractional Currency 1924. (I have the second printing).

Homans, Coin Book 1875. (I have the 1872 edition).

Parmelee Sale 1890. (Mine has a "bad back").

Heath, Counterfeit Detector Pocket size. Copyright 1870, Tenth Edition, Green cover.

Heath Counterfeit Detector Pocket size. Copyright 1870, Third Revised and Corrected Edition, Green cover.

Heath Counterfeit Detector, Counting House size. Copyright 1877, dated 1877, 12th Edition, Green cover.

Heath J. S. Tress. & Nat. Bank Note Detector, Counting House size, Copyright 1877, dated 1880, 13th Edition, Purple cover.

I have not forgotten all the other open matters.

Mr. Leonard Finn

Dear Leonard:

My trip to Europe was like yours, numismatically...very dry... but I obtained a few coin scales. It was fun, otherwise. We toured mostly through rural England but I spent three hours at the Royal Mint, in London, discussing problems and that was exciting.

As to the Georgia pieces, Bob Vlack told me he bought them so I'm glad they are in a nice collection. As to the Virginia pieces, the owner wanted them back so I had to oblige. I wish I had known earlier you could sell them.

As to research, you sent me poor photostats of

Davission & Schooneover - 3d Waterford, N.Y. 9/10/1789

J. Porter 4d Millton

Klister (?) 3d Saratoga 1791 Ferry Money

Will you send me the originals so I can make better pictures. If, of course, you are selling any change notes, I am interested. If you parted with any of them tell me who has them so I can get the pictures.

Going back to the open matter of the Colonial paper money exchange, I received from you

NH 6/28/76 8d #3159 vf (\$110 your value)

NY 7/3/76 \$5 #1743 vg (\$120 your value)

On March 2, 1970 I sent you four notes of which you kept three. These were

NC 30 s 3/9/54 #171

Va 10 s 4/5/59 #721

Va f3 3/11/60 #1491

The Virginias are exceptionally rare, as you well know. I don't know prices like you do and I think you should evaluate the three I sent. I believe they should be evaluated substantially higher than the total of \$230 for your two. Perhaps you can balance off with a change note or so. What do you suggest?

Did you ever get the 1737 Mass. 5d?

As to the Parker House sheet which Ralph Goldstone has, why don't you find it for me. Things I can use in his possession seem to stay hidden. See what you can do. I am about to give up on the books.

Otherwise, I'm working hard on the ANA authentication procedures and my research has been slowed down.

Dear Sirs -

Just a short note to you

You'll get it before you get to Washington -

Ralph Goldstone is bringing all the North Books over to Capetown to be taken all (that is Ralph's work). You may be here a long time -

He got the 3 early manuscripts out for the Vans to photograph them - of course

I haven't sold any of them

On the exchange - I don't agree
with you - Tell an to you
later

I didn't get the Times 7/27

promised to let me take

only 1 day - Sat. the 14th. Then
I'll see you -

Dear Eric:

Sorry I didn't make the ANA show. I was coming on Saturday, but I received a call on Friday, that my notes were not on display. Also the 1737 Mass. note couldn't be located, so I cancelled my flight.

I'm enclosing Xerox copies of the notes you requested. The reverses are poor because the notes are dark. If they are not good enough, I'll mail you the originals.

On the trade, I'm going to have to disagree with you. Your notes are rare but the condition is poor. There is not a complete note among the three. I showed these notes to three other "experts" and this is a consensus. Here's my valuations, and in as much as I priced my notes lower than fair value to you, I priced yours the same way.

N.C.	1754	\$45.00
VA.	1759	35.00
VA.	1760	65.00

If you don't agree, I'll return the notes as I don't want any bad feeling.

Ralph Goldstone says you took quite a few of the books. Hurray!!!

I bought for my collection a Vermont piece and a Rhode Island 3/18/1776 with the Ellery signature. Also bought a small lot of 1744 Mass. Government Lottery tickets. This was the first lottery drawn in the States authorized by a legislature. Do you collect them?

Sincerely

August 27, 1971

Mr. Leonard H. Finn

Dear Leonard:

I searched for you on Saturday at the ANA Show and had previously looked in vain for your exhibit. I was wondering what happened. I was so sorry we didn't get to meet.

I hope they didn't lose a 1737 Massachusetts note. Dick Picker's twoattaché cases were taken from the security room; George Fuld's registered letter was rifled before arrival; a dealer reported that he saw thieves casing the Exhibit Hall and another dealer at the convention was pistol whipped.

Nevertheless, I had a stimulating time! There were four Colonial paper exhibits. I attended the book auction.

Thank you for the good Xerox copies of the change notes I asked for.

As to the exchange, there will be no disagreement. I'll just let it stand. Those experts who valued the Virginia notes probably never even owned one of the early period.

Ralph Goldstone let me take on approval a group of books,etc. and I'll buy many. I may write an article on Laban Heath and wonder if you would try to find out if he has any relatives left there. He died in 1894. I have not located anything written about him yet. Will you help?

As to your 1744 Massachusetts lottery pieces, I collect such items only if they wander in. I probably would get a winning ticket if I bought one so I will await the drawing.

My very best wishes,

Sincerely,

Mr. Leonard H. Finn

[REDACTED]

Dear Leonard:

You asked for it so let's see what fun you can have on a fresh unknown subject.

The first thing I would like you to do is to ask Ralph Goldstone to ship me all of the books he has left. Many of these are incomplete with respect to some of the plates. I have a group from Ralph Goldstone, on approval, many of which I am going to buy, but a couple of those need patching. My idea is to cannibalize a little bit where it doesn't hurt pieces which are already incomplete.

Leban Heath died in January, 1894, in Revere, Massachusetts. He lived in the Crescent Beach district of Revere. If you could look in the city directories covering Revere you could find his exact address. His obituary mentions no relatives. He was born in Bow, New Hampshire, in 1837 and for the last 20 years prior to his death he was engaged in some other business than counterfeit detection and I have no idea what it is. Perhaps he owned his home and the real estate records of Revere will show to whom his home passed when he died. That might give a clue as to who his children were, etc.

The first thing I would look for, if I were you, would be his will or the administration of his estate in the appropriate court. That administration will show his family and perhaps give us a further lead to find his family.

All you have to do is to find something interesting and you will be completely hooked. Research is addictive, so be careful. If you have any problems as to where to look for records, ask my friend, Thomas Kaplan, an attorney, in Boston, and he will guide you.

Are you interested in some of the small Heath Detectors which Ralph sent me at \$35 each? I may give my friends an opportunity on some of them which I already have and wanted you to have a couple if you are interested.

My kindest regards,

Sincerely yours,

EPN/ath

October 6, 1971

Mr. Leonard Finn

[REDACTED]

Dear Len:

What a fine start you have made on Heath. It is too bad he had no genuine or counterfeit children. His sister-in-law's family probably didn't have a reason to keep his books as she wasn't married, apparently.

It would be good to check the city directories for the years from 1864 until at least 1880. At first his office was at 20 Washington Street, then about 1866 it was 30 Hanover, and by 1880 he had both 30 and 48 Hanover Street. This information is gleaned from the detectors. The library would have all these directories.

The optical goods Heath sold were probably microscopes he advertised in his detectors. Did the Probate file have an inventory of things or not?

At your suggestion I telephoned Ralph. He is just blue because of his wife's health and treatment. He was cooperative and needed cheering up. I did my best.

I was recently in Colorado Springs and you are right about the wide open spaces. The Air Academy is really isolated but some people like it that way. The A. N. A. building is beautiful and it is being used more and more.

Keep up the good work.

Sincerely,

Dear Eric:

A Happy and a Healthy New Year to you and your family. Haven't written for some time. Had lots of troubles. Sickness, deaths, and an accident, and very little time for Numismatics. Everything is O.K. now.

I'm at a standstill on Laban Heath. I put ads in the Revere, Boston and Concord N.H., newspapers. Had one answer who promised to write older relatives, but so far nothing. I also wrote the Library of Congress and the Treasury Dept. Both had nothing on him.

On the exchange of the notes, if you have no objection lets call it even.

I picked up a few pieces of Church Money and early script.

It was delightful seeing you and meeting all of the Boston numismatic brass.

You were very nice to invite me as a guest speaker some time when I can be in Boston on the second Tuesday.

You mentioned that you had a few pieces of early script and you also stated that some of it was in terrible condition.

As to the Lansburgh Museum, I do not have either the 1 or the 4 pence, although I have the 2 and 3 pence.

As to the Canajoharie, I do not have the 3 pence. If you could send me these for inspection, and tell me what would treat you, I will gladly work on it.

I would appreciate a good Xerox copy of the 6 pence of the Presbyterian Church piece of Ballstown.

Dear Leonard:

I have no excuse for not writing you previously so I won't make any. I am under such a mound of numismatic correspondence that I wonder if it is getting better or worse.

As to the two little notes from Little Falls, New York, of which you were kind enough to send photocopies, I am satisfied they are in the early 1790's. However, Mr. John Porteus, who signed the bills, is not mentioned in the United States Census for 1790 as a resident of New York. This is true of a few of the other issuers although I have located most of them. The Webster printing and signature is identical to other notes. Do you want to keep both of these notes or just one of them?

The information about the little notes of the Union Bank of New London was most interesting and I read it very carefully. I imagine the 1794 issue was what was authorized in 1792 and the bills they refer to in 1795 are not small denominations but the large ones.

Thank you for your memorandum with respect to Mr. Laban Heath still being in the microscope business.

I haven't forgotten about the notes I have on hand but merely want to give you an interim report.

Dear Lenn.

You are wise and concentrate on some areas. I am unwise and spread myself too thin. In a weak moment I agreed to become chairman of the Amer Rev Bill Coin & Medals Panel — a nice honor but who needs the politics, the meetings, the crank letters, the frustrations. This isn't all the numismatic involvements I have been tied into this year. Please pity me or something. When can I get back to research & collecting.

JOHN PORTEONS is listed in the 1790 census in Herkimer Town, Montgomery Co, N.Y. As you indicate J. PORTIONS is listed in the NY State Library hist. The correct name from your note is JOHN PORTENS as I read it. Do you agree?

I am enclosing a First Pres Church Newark note of 4d with a Budinot signature. I think you can ~~make~~ ^{make a good copy} of it. Send me either of the Portens notes and I would be delighted.

Thank you for your recent letter with it's enclosure. I must do some very deep thinking to determine whether bonds or notes relating to currency should be listed. Yours is a very interesting one and I will certainly mentioned it if I do not list it. I will discuss the project in Boston with Len Bresett. You mentioned organizing a club. I am glad that the Colonial Newsletter is open for writing on paper money and perhaps they would serve the purpose. I still have the Lanesburgh matter in my pending draw. Dear Leonard:

Congratulations on an excellent educational forum and a fine convention. The St. Louis note which you handed me, as you know, has been pasted on a piece of paper because it is torn. The three notes, the pictures of which I enclose, are also somewhat ragged. Since I turned over to you a lovely John Law note I am going to leave it entirely up to you as to whether you think something else should come my way, particularly since I gave you a lovely signature on a note on our last exchange. There is no rush. I am sure you realize how nice the John Law is.

Kindest regards,

ERIC P. NEWMAN

Dear Leonard:

Thank you for your nice letter of November 10, 1973. I have other records of the Albany 3 pence, but you certainly picked up a nice specimen.

Unfortunately I have a principle that I will not accept money for numismatic items. If you want to send me the Albany piece to even off the exchange, you may. If not, you can find me something else nice sometime.

I do collect scrip from all areas, so that, naturally, I have a nice group of Vermont, etc.

I am so glad that all of you were satisfied with the success of your convention. You have a lot to be proud of. I hope all the turmoil in the country calms down enough to let us enjoy numismatics without the wild speculation of the current market.

Sincerely yours,

Eric P. Newman

It is marked "CAROBASIS" proof -

The only record I can find

Currency in Part I + Part II in

Mr. Leonard Finn

Dear Leonard:

Now I have two letters of yours to answer and so here I go.

I enjoyed working at the convention discussing research projects and gathering information. I thought I might see you there, but it was a madhouse as usual.

As to the Massachusetts bank item which you acquired, I am not certain whether it is a reprint or not. It is from the original plates, but the paper is better than anything I have ever seen or heard about which existed in 1785. Your note is listed in Early Paper Money of America, along with all the others. I mention this because you state that Wismer is the only record you can find of it.

As far as what I collect is concerned, there isn't anything American which I do not collect, coins, paper money, tokens, books, scales, numismatic pictures, etc., from all periods, but only American related. That gives you a wide range if you feel you want to find something for me.

I am working very hard on the revision of my book and will include the John Law notes. I hope you will like that.

I hope our paths cross soon. Thanks for writing.

Cordially yours,

Eric P. Newman

② Four Dollars JAN 1720

This note is HANDSIGNED -

How many types of Town Law

denominations - or dates ??

Shows you my idea what the

on the trading price - on what
Bob Knob price for this $\xrightarrow{*} 125^{00}$

Dear Leonard:

I just returned from a delightful trip to Afghanistan and I am back to work on my book.

I was glad to see you get a large size Heath of 1870, but unfortunately I do not have the plate which you need.

I certainly did receive your Shell cards and put them in my collection of money-related items.

I have been working with the Rhode Island Historical Society, but as you say they do not have very much.

I told Bob Vlack to write me with respect to talking to your collector club next spring. He has not done so. If you see him, give him the needle. I don't even know the official name of the club involved. If I talk to him first, then I will remind him.

You will be interested to know that I have finished the section on small change notes for the revised book and it was a real workload. It does add a new dimension to American paper money.

My very kindest personal regards.

Sincerely,

Eric P. Newman

thought was a bargain -

It was a pleasure talking to

Dear Len:

I very much appreciated the suggestions made in your July 12, 1975 letter with respect to designating cancellation in pricing so that it is done in a uniform manner. I will certainly ask my pricers to make appropriate changes.

With respect to the Herper scale, I would like to be able to add this to my collection and would appreciate it if you would send it to me at P. O. Box 14020, St. Louis, Missouri 63178. I will find something for you in Colonial paper.

The Mint Report for 1805, I already have in American State Papers Financial. Yours is probably an earlier publication.

It is nice to see your enthusiasm for the book as I am mired in proofreading and technical corrections.

I received your recent letter and want to assure you that even though other people may try to take you to the cleaners, I certainly do not want you to put me into that class.

I want to remind you that I sent you the John Law Note as a present and you insisted on giving me something in exchange. Don't you think that under those circumstances you should send me the scale and let me know what Colonial items you would be most interested in. I have not seen the scale and, therefore, would like very much to do so. As I said before, no exchange will take place until you are completely satisfied.

Here's a few of the items

I do have the Mint report in a subsequent publication and will return it as soon as I get back from the ANA show in L.A. In the meantime I am enclosing an item which may be of great interest to you. It is a reprint of the South Carolina £1 note of 1748 of which no origin is known. You like unusual things and this certainly qualifies as one. I have no idea how to evaluate items of this sort.

Dear Len:

After the Christmas holidays are over I am going to mail to you something very unusual. It is a Federal Ready Reckoner published by Samuel Sower in 1793, showing an explanation of the U. S. coinage system and an explanation for the moneys of account of the various states and the conversion of foreign coins into both. It is so rare that ANS does not even have a copy. It is published in Philadelphia and is the first book covering U. S. federal coinage. I hope when I send this it will please you in connection with the pending exchange.

My best wishes for the holidays.
